

Index to Signal

Volume 33 September 1978 through August 1979

TITLE

Issue Page

A

1. AEGIS: Shield of the Fleet of the 80s . . Oct. 46
2. Applications for Airborne Digital Communications Sept. 23

B

3. Banquet Address Aug. 37
4. Battlefield Automation-Communications Network, A Aug. 96

C

5. C³I: An Overview N/D 10
6. Can We Teach C³? M/J 101
7. Challenge of C³, The M/J 69
8. Combat Support N/D 23
9. Counter C³ Mar. 24

D

10. DARPA Research in Surveillance and Target Acquisition Oct. 25
11. DCS at the Crossroads M/J 53
12. Defense Communications Systems . . . N/D 44

E

13. ELF in Warfare Jan. 19
14. E-3A Enhancements Oct. 9
15. EW's New Dimension Mar. 36
16. Electron Devices in Anticipated Battlefields of the Future Mar. 31
17. Electronic Warfare Integration & Planning Mar. 16
18. Evolution of NICS, The Apr. 14

F

19. Federal Policy and the Private Sector . . M/J 124
20. Fluidic Voice Communications Systems . . Jan. 47
21. Foliage Penetration Radar Oct. 37

G

22. GPS is on the Ground Mar. 47
23. Government Information Resources . . . Jan. 53

I

24. Implications of Communications Sophistication for NATO Naval C³ Apr. 51
25. Improving NATO Through Armaments Collaboration Apr. 43
26. In NATO Communications PSI-NICS Concept at All Levels Sept. 19
27. Industrial Luncheon Address Aug. 47
28. Information Systems N/D 32
29. Integrated AUTODIN System, The . . . M/J 105
30. Intelligence and National Security . . . N/D 16
31. Interconnecting Government and the People July 7

K

32. Keynote Luncheon Address Aug. 21

L

33. Logistics Cooperation in NATO through NAMSA Apr. 25

M

34. Management by Decision Sept. 35
35. Management and Systems Engineering: User Roles in Air Force C³ Systems . . . July 18
36. Management and Systems Engineering: System Effectiveness in the U.S. Navy . . . July 20
37. Management and Systems Engineering: Analyzing Army's Readiness and Sustainability July 15
38. Market Imperatives of NATO Cooperation Apr. 37
39. Marine Corps C⁴ Systems Architecture . . . July 25
40. Military Command and Control (C²) . . . Jan. 14
41. Military Posture and National Power . . . M/J 115

N

42. NATO Commanders View C³ Apr. 10
43. NATO Long Term Defense Program, The Apr. 29
44. NATO Marketplace, The Apr. 86
45. NATO: On Turning Thirty Apr. 21

 53. Spacelab Program International Participation, The Feb. 28
 54. Space Shuttle: The New Space Transportation System Feb. 10
 55. Space Shuttle Redundant Computer Operations Feb. 41
 56. Strategic and Theater Command and Control Systems N/D 50
 57. Surveillance and Warning N/D 39
 58. Sustaining Members' Luncheon Address Aug. 27

T

59. TACAMO Sept. 6
 60. Tactical C³ Architecture 1985-1995 Aug. 63
 61. Tactical C³, The Modern Challenge Sept. 14
 62. Tactical Portable Communications: New Technology Trends for Cost Effectiveness M/J 93
 63. Tactical POS/NAV for the 1990 Air/Land Battlefield Aug. 118
 64. Telephone Cost Control Jan. 42
 65. Top Management's Role in Defense Technology Development for Electronics July 29
 66. Transportable Communications: Are They Really the Answer? Sept. 41
 67. Trends in Protected Communications Aug. 85

U

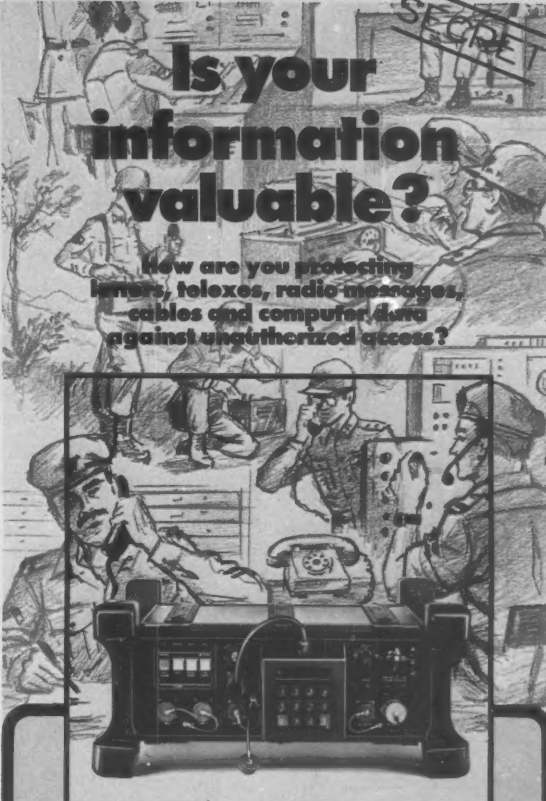

68. U.S. and Australian Navies Communications Interoperability M/J 61
 69. U.S. Coast Guard Remote Sensing Techniques Oct. 16
 70. U.S. Navy's Role in C³ in EW, The Mar. 41
 71. U.S.P.S. "Waves" of the Future Jan. 8

V

72. Voice Computer System Charges Credit Calls Jan. 27

W

73. What Makes METRO Run? July 33
 74. Watch Out! Here Comes Another Camel! M/J 77

Is your information valuable?

How are you protecting letters, telexes, radio messages, cables and computer data against unauthorized access?

GRETAG protects

For more than 30 years confidential information has been entrusted to GRETAG coding equipment all over the world.

Our experienced specialists can also find an individual solution for you from our wide range of products.

Telephone · Radio · Data · Text · Telex · Facsimile
